

**ARTICLE 5
SUPPLEMENTARY DISTRICT REGULATIONS**

SECTION 501 GENERAL PROVISIONS

The following supplemental regulations are applicable to all zoning districts within Munson Township unless otherwise modified by the requirements of a specific zoning district.

SECTION 502 FRONTAGE REQUIRED

No new lot shall be created which does not possess the required minimum frontage upon a public or private road established for the district in which such lot is located.

SECTION 503 PRINCIPAL STRUCTURES PER LOT

No more than one (1) principal building or structure may be constructed upon any one lot located within a Residential or Flood Prone District. The construction of more than one (1) principal building or structure shall require a variance from the Board of Zoning Appeals.

SECTION 504 REDUCTION OF AREA OF SPACE

No lot, yard, court, parking area, or other space shall be reduced in area or dimension, thus making said area or dimension less than the minimum required by this Resolution and, if said area or dimension is already less than the minimum required by this Resolution, it shall not be further reduced.

SECTION 505 ARCHITECTURAL PROJECTIONS INTO REQUIRED YARDS

All architectural projections shall be in accordance with the following provisions:

- 505.1 Chimneys, flues, sills, pilasters, cornices, eaves, gutters, and other similar architectural features may project into any required yard a maximum of twenty-four (24) inches.
- 505.2 Landings and steps, whose sole function is to provide safe entrance and exit to or from the structure, may extend from the dwelling into the required front yard a maximum of ten (10) feet. Open structures such as roofed porches, canopies, balconies, decks, platforms, and carports, shall be considered parts of the building to which attached and shall not project into any required yard.

SECTION 506 MAXIMUM BUILDING AND STRUCTURE HEIGHT

Unless otherwise provided for by this Resolution, the height of all buildings (excluding church spires, belfry, clock tower, stage tower, chimneys, antennas, or other mechanical appurtenances usually placed above roof level and not intended for human occupancy) shall be limited to thirty-five (35) feet. There shall be no living space above twenty-eight (28) feet. The height of any structure, other than a building, or of any building together with the above-mentioned appurtenances, shall be limited to sixty (60) feet.

**ARTICLE 5
SUPPLEMENTARY DISTRICT REGULATIONS**

SECTION 507 PLACES OF WORSHIP

- 507.1 The minimum lot area shall be in accordance with the regulations affecting the district in which the place of worship is located.
- 507.2 Parking as regulated in Section 521.
- 507.3 Adequate screening shall be provided along all property lines bordering residential lots.
- 507.4 Signs as regulated in Article 10.

SECTION 508 DRAINAGE

All district sites shall be graded for proper drainage so that all water is drained to a properly constructed drainage system within the area to avoid drainage upon roads or adjoining property. In all zoning districts an erosion control plan shall be included with the application for a Zoning Certificate for the construction of all principal permitted, accessory and conditional buildings, structures, uses, and off-street parking, loading/unloading areas allowed by this Resolution and any additions thereto on lots less than five (5) acres in size; provided, however, an erosion control plan shall not be required for any principal permitted, accessory or conditional buildings, structures, and off-street parking or loading/unloading areas containing less than three hundred (300) square feet in area. If the lot is five (5) acres or more in area, the applicant shall include with the application for a Zoning Certificate written documentation from the Geauga Soil and Water Conservation District (SWCD) that an erosion control plan has been submitted to the Geauga Soil and Water Conservation District and approved for the subject lot.

- 508.1 An erosion control plan shall be prepared by the applicant, a professional engineer registered with the state of Ohio, a soils scientist, or a private contractor and must address temporary and permanent measures for controlling erosion during and following construction. The content of the plan and such temporary and permanent measures to control erosion shall meet all requirements for sediment and erosion control contained within the Geauga Soil and Water Conservation District regulations.
- 508.2 An erosion control plan shall be submitted by the applicant to the Zoning Inspector. The Zoning Inspector shall advise the applicant that the plan may be forwarded by the Zoning Inspector to the Geauga Soil and Water Conservation District for technical assistance and review.
- 508.3 All areas affected by earth disturbing activities on a lot shall be permanently seeded and mulched pursuant to the erosion control plan within one hundred and twenty (120) days after the date an occupancy permit has been issued by the Geauga County Building Department. If said permit is issued between the time period of November 1st to April 15th of the following calendar year, temporary stabilization measures pursuant to the erosion control plan shall be utilized.

SECTION 509 ACCESSORY STRUCTURES

All accessory structures shall be in conformity with the following provisions:

- 509.1 All accessory structures shall be anchored to the ground.
- 509.2 Unless otherwise noted herein, no freestanding garage or other accessory structure shall be erected within the front yard of any district, except fencing.
- 509.3 Accessory structures shall be located within the side and rear yards as set forth in Section 411. Accessory structures shall not be closer than fifteen (15) feet to the principal structure, except for the following freestanding structures: swimming pools, fences, dish antennas, decks, and gazebos.

509.4 Student Bus Stop Shelter

Shall be in conformity with the following provisions:

- a. No student bus stop shelter shall be placed within any public right-of-way.
- b. Should any student bus stop shelter be or become unsafe, unsightly, or be in danger of falling, the owner of the real property upon which the shelter is located shall, upon receipt of written notice from the Zoning Inspector, proceed at once to put such shelter in a safe and secure condition or remove the shelter.
- c. The floor area shall not exceed thirty-two (32) square feet.
- d. The height shall not exceed eight (8) feet.

509.5 Fences, Gates, and Walls

Shall be in conformity with the following provisions:

- a. Fences, gates, and walls shall be erected outside of the right-of-way of any public or private road.
- b. Fences, gates, and walls shall not block or impede clear sight distance of vehicle operators at the intersection of any public or private road.
- c. Fences and walls shall be a maximum of four (4) feet in height in any front yard and no more than six (6) feet in height in any side or rear yard, except as otherwise provided herein.
- d. No part of any fence or wall shall extend beyond the boundary lines of the property being enclosed.
- e. The unfinished side (if any) of a fence, including the structural supports and posts, shall face the lot upon which the fence is constructed.

509.6 Permitted Buildings, Structures, and Uses in Required Yards

The following buildings, structures, and uses shall be permitted in the minimum yards set forth in this Resolution without a Zoning Certificate, unless otherwise indicated and shall not be used for habitational purposes.

- a. Flagpoles
- b. Mailboxes
- c. Student bus stop shelters

- d. Playhouses
- e. Children's tree houses
- f. Swing sets and other related recreational equipment

SECTION 510 CORNER LOT YARDS

In a Residential District, in the case of a lot located at the intersection of two roads, the front yard setback shall be a minimum of eighty (80) feet from the road right-of-way, and the side yard setback adjacent to the intersecting road shall be a minimum of sixty (60) feet from the right-of-way of the intersecting road. For other district corner lot yards see Section 411.

SECTION 511 DRIVEWAYS

Driveways shall be a minimum of fifteen (15) feet from any lot line, have a minimum width of twelve (12) feet, and a minimum apron width of twenty (20) feet at the road pavement, and as regulated in Section 521 for Commercial, Industrial, Institutional and Medical Use Districts.

SECTION 512 REQUIRED TRASH AREAS

All commercial and industrial uses that provide trash and/or garbage collection areas shall have such areas enclosed on at least three sides by a solid wall or fence adequate in height to screen the containers, if such area is not within an enclosed structure. Provisions for adequate vehicular access to and from such area or areas for collection of trash and/or garbage as determined by the Zoning Inspector shall be required.

SECTION 513 OUTDOOR STORAGE AND WASTE DISPOSAL

All outdoor storage and waste disposal shall be in accordance with the following provisions:

- 513.1 Materials or wastes which might cause fumes, dust, which constitute a fire hazard, or which may be edible or attractive to rodents or insects shall be stored indoors only in closed containers constructed of impervious materials.
- 513.2 No materials or wastes shall be deposited upon a lot in such form or manner that they may be transferred off the lot by wind, flood, or natural causes or forces.

SECTION 514 PRIVATE SWIMMING POOLS

Private swimming pools may be permitted in any district, provided the following provisions are met:

- 514.1 The pool is intended solely for the enjoyment of the occupants and guests of the principal user of the property on which it is located.
- 514.2 The pool must be located on the property so as to conform to the minimum dimensional requirements set forth in Section 411, and may not encroach upon any required front yard,

**ARTICLE 5
SUPPLEMENTARY DISTRICT REGULATIONS**

or any required on-site wastewater leaching areas or replacement areas designated by the Geauga County Health Department.

- 514.3 An outdoor in-ground swimming pool shall be surrounded by a barrier or fence, except as may otherwise be provided herein, which shall comply with the following sub-paragraphs a-d:
- a. Not be less than four (4) feet in height and four (4) feet from the pool's edge;
 - b. Fencing shall be constructed so as to prohibit the passage of a sphere larger than four (4) inches in diameter through any opening or under the fencing. Fencing shall be designed to withstand a horizontal concentrated load of two hundred (200) pounds applied on a one (1) square foot area at any point of the fencing; and
 - c. access gates shall comply with the fence requirements of this section, and shall be equipped to accommodate a locking device. Pedestrian access gates shall open outward away from the pool, and shall be self-closing and shall have a self-latching device. Gates other than pedestrian access gates shall have a self-closing and self-latching device. Where the release mechanism of the self-latching device is located less than fifty-four (54) inches from the bottom of the gate, the release mechanism and openings shall comply with the following:
 1. The release mechanism shall be located on the pool-side of the gate at least three (3) inches below the top of the gate.
 - d. Where a wall of a dwelling serves as part of the barrier, one of the following regulations shall be met:
 1. The pool shall be equipped with a power safety cover in compliance with ASTM F 1346-91 and shall be used and in place when the pool is not in use.
 2. Doors with direct access to the pool through that wall shall be equipped with an alarm which produces an audible warning when the door and its screen, if present, are opened. The alarm shall be listed in accordance with UL 2017.
 - e. Where an above ground pool structure is used as a barrier or where the barrier is a safety cover mounted on top of the pool structure and the means of access is a ladder or steps:
 1. The ladder or steps shall be capable of being secured, locked or removed when the pool is not in use to prevent access.
 2. When the ladder or steps are secure, locked or removed, any opening created shall not allow the passage of a four (4) inch diameter sphere.
- 514.4 A Zoning Certificate shall be required prior to the construction of all pools except storable pools; however, storable pools shall require a Zoning Certificate in any of the following situations:
- a. If the pool remains assembled for a period greater than seven (7) consecutive months.
 - b. If the pool is set into the ground, regardless of its size and/or depth.
 - c. If a deck is built adjacent to the pool.
 - d. If permanent connections are made for the filter and/or heater. Where electrical and/or plumbing work is required incidental to any pool construction, all applicable county permits shall be required.
- 514.5 No swimming pool shall be constructed so as to allow water to drain into any sanitary sewer or septic tank, not to overflow upon or cause damage to any adjoining lot.

**ARTICLE 5
SUPPLEMENTARY DISTRICT REGULATIONS**

514.6 Exterior lighting shall be shaded wherever necessary in order to avoid casting direct light upon any other property or any public street.

SECTION 515 DRIVE-IN SERVICE

Establishments, which by their nature create lines of customers waiting to be served within automobiles, shall provide off-road waiting spaces in accordance with the following requirements:

- 515.1 Photo pick-ups, restaurants, drive-thru beverage docks, and other similar commercial establishments that can normally serve customers in three minutes or less shall provide no less than five (5) waiting spaces per window. Drive-in restaurants and other similar uses which require an additional stopping point for ordering shall provide a minimum of five (5) waiting spaces for each such stopping point.
- 515.2 Commercial establishments which require a transaction time in excess of three (3) minutes such as banks, savings and loan offices, or other similar money windows shall provide no less than seven (7) waiting spaces per window.

SECTION 516 STORAGE OF CONSTRUCTION EQUIPMENT AND OTHER LARGE VEHICLES

516.1 Construction Equipment Within Residential Districts

Outdoor storage or parking of backhoes, bulldozers, well rigs, and other similar equipment used for commercial purposes, other than equipment temporarily used for construction upon the site, shall not be permitted within any Residential District.

516.2 Other Vehicles

- a. Outdoor storage or parking of no more than one (1) boat and one (1) recreational vehicle shall be permitted within any Residential District. Such vehicle(s) shall not be a) located partially or wholly in front of the principal building on any lot, b) be closer than twenty (20) feet from any side or rear lot line, and c) located closer than sixty (60) feet from any side yard of a corner lot. Any additional boats or recreational vehicles shall be parked or stored in a fully enclosed building. Any boat or recreational vehicle shall not be used for habitational purposes.
- b. The parking or storage of commercial tractors as defined in O.R.C. Section 4501.01(D) or as amended, semitrailers as defined in O.R.C. Section 4501.01(P) or as amended, or any vehicle having a gross vehicle weight (GVW) of twenty-five thousand (25,000) pounds or more, other than for the purpose of making temporary delivery or service calls, shall be prohibited outside of a fully enclosed building in any residential zoning district. In all other non-residential zoning districts, such commercial tractors, semitrailers, or vehicles with a GVW of twenty-five thousand (25,000) pounds or more shall not be parked or stored in front of the principal building on a lot unless they are within a driveway, parking or loading/unloading area pursuant to Section 521 and shall be set back from all lot lines in accordance with the regulations for the zoning district in which they are located.

516.3 Junk Vehicles

Outdoor storage or parking of junk vehicles shall not be permitted within any district.

SECTION 517 JUNK

The purpose of this section is to promote the health, safety, and welfare of Munson Township by among other things, eliminating environments for breeding of vermin, rodents, insects, and infestations. Junk, or its storage, shall not be permitted in any district.

SECTION 518 DEBRIS ON ROADS

Any mud, trash or debris left on roads or highways, deposited by any person or vehicles is to be immediately removed by the responsible person and such road or highway surface to be returned to, and maintained in, a safe condition for public driving.

SECTION 519 TEMPORARY USES

The following regulations are necessary to govern the operation of certain uses which are non-permanent in nature. Application for a Temporary Zoning Certificate shall be made to the Zoning Inspector containing a comprehensive and detailed plan, submitted when application is made, which includes a description of the proposed use, and sufficient information to determine yard requirements, setbacks, sanitary facilities, and parking space for the proposed temporary use. The following uses are deemed to be temporary uses and shall be subject to the specific regulations and time limits which follow and to the regulations of any district in which such use is located:

519.1 Temporary Offices

Temporary offices for contractors and equipment sheds incidental to a construction project may be permitted within any district. The certificate shall not be valid for more than one (1) year but may be renewed for six-month extensions if construction is substantially underway. Such uses shall be removed immediately upon completion of the construction project, or upon expiration of the Temporary Zoning Certificate, whichever occurs sooner.

519.2 Temporary Mobile Home

The temporary placement of a mobile home upon a lot which already contains a residential structure may be permitted where the Zoning Inspector finds that special circumstances or conditions such as fires, windstorms, or other similar events which are fully described in the findings of the Inspector, exist, such that the use of a temporary residential structure is necessary in order to prevent an exceptional hardship on the applicant, provided that such a temporary structure does not represent a hazard to the safety, health, or welfare of the community. An applicant for a Temporary Zoning Certificate under this section must produce a written statement from the Geauga County Health Department approving the water supply and wastewater disposal system of the temporary mobile home location. Such certificate may be initially issued for nine (9) months, renewable for up to three (3) months' time for all certificates, not exceeding a total of twelve (12) months.

**ARTICLE 5
SUPPLEMENTARY DISTRICT REGULATIONS**

519.3 *Temporary Storage Containers*

Storage containers are permitted in any district. A Zoning Certificate valid for thirty (30) consecutive days from the date of issuance shall be obtained from the Zoning Inspector prior to the delivery of the storage container. Additional thirty (30) day extensions may be granted past the original thirty (30) days by the Zoning Inspector upon showing good cause. A fee will be assessed for each thirty (30) day extension, not to exceed a total of ninety (90) consecutive days.

519.4 *Garage Sales*

Garage sales, which for purposes of this section shall include yard sales, barn sales, tent sales and similar activities, may be permitted within any district. Any individual, family and community organizations may conduct such sales for no more than five (5) consecutive days. No Zoning Certificate is required.

SECTION 520 HOME OCCUPATIONS

No person shall engage in a home occupation, or materially alter the scope of an existing home occupation, within the Township unless and until applicant has applied for, and the Zoning Inspector has issued, a Zoning Certificate pursuant to Article 12 of this Zoning Resolution.

Home occupations shall not:

- a. Employ anyone not a member of the resident family;
- b. Produce unreasonable and excessive noise, smoke, dust, heat, odor, or vibration that could have an adverse effect upon the surrounding neighborhood;
- c. Offer for sale on the premises material products not produced by such home occupation;
- d. Present outward evidence of such use, including but not limited to signage;
- e. Operate any business that offers or provides lodging to the general public for compensation;
- f. Operate in violation of any federal, state or local laws or regulations

SECTION 521 GENERAL REQUIREMENTS FOR PARKING, AND LOADING/UNLOADING SPACES

- a. Adequate parking and loading/unloading spaces in accordance with this Resolution shall be provided at the time any building, structure or use is located, erected, constructed, reconstructed, enlarged, or structurally altered, or any use is changed.
- b. All parking and loading/unloading spaces shall be located totally outside of the right-of-way of any public or private road.
- c. All parking and loading/unloading spaces shall be located on the same lot as the use to be served, unless otherwise specified herein.
- d. All parking and loading/unloading spaces shall provide for the proper drainage of surface water to prevent the drainage of such water onto adjacent properties, walkways, and roads.
- e. All parking and loading/unloading spaces together with driveways, aisles, and other circulation areas shall be improved with such material to provide a durable all-weather and dust-free surface such as concrete or asphalt.

**ARTICLE 5
SUPPLEMENTARY DISTRICT REGULATIONS**

- f. The owner of the property used for parking and loading/unloading spaces shall maintain such areas in good condition without holes and free of all dust, trash, and other debris.
- g. All parking and loading/unloading spaces intended to be used during non-daylight hours shall be properly illuminated to avoid accidents. Any lights used to illuminate a parking lot or loading/unloading spaces shall be so arranged as to reflect the light away from the adjoining property or roads, and shall be in accordance with the lighting regulations for the zoning district in which located.
- h. All hard-surfaced parking lots shall be striped between spaces to facilitate the movement into or out of parking spaces with a capacity of ten (10) or more.
- i. All parking lots and loading/unloading spaces shall be designed in such a manner that any vehicle entering or leaving such parking lots and loading/unloading spaces from or into a public or private road shall be traveling in a forward motion. Access driveways for parking lots and loading/unloading spaces shall be located in such a way that any vehicle entering or leaving such area shall be clearly visible for a reasonable distance to any pedestrian or motorist approaching the access driveway from a public or private road.
- j. All entrances and exits to a parking lot shall be clearly delineated by appropriate directional signage and/or pavement markings. Interior vehicular circulation patterns shall be delineated by appropriate directional signage and/or pavement markings. Driveways providing access to a parking lot and aisles delineating interior circulation patterns within a parking lot shall maintain the following minimum standards:
 - 1. For one-way traffic the minimum width of access driveways and aisles shall be fourteen (14) feet.
 - 2. Driveways and aisles for two-way traffic shall have a minimum width of twenty-four (24) feet.
 - 3. There shall be no more than two points of ingress/egress per lot from a road to a parking lot and such points of ingress/egress shall be spaced a minimum of one hundred (100) feet apart, measured from the centerline of each driveway in a perpendicular fashion.
- k. Parking may be located within any front, side, or rear yard, subject to all minimum setbacks, except parking may be permitted no closer than fifty (50) feet from a front or side road right-of-way. Loading/unloading spaces shall be located to the side or rear of the building or structures they serve, and shall not be located within any front yard.
- l. Whenever a parking lot and/or loading/unloading spaces is located in or adjacent to a Residential District or use, it shall be effectively screened on all sides that adjoin or face any property used for residential purposes, by a wall, fence, or planting screen. Such wall or fence, shall be not less than six (6) feet nor more than eight (8) feet in height upon installation and shall be maintained in good condition. Planting screens shall be a minimum of six (6) feet in height upon installation, deer resistant evergreens and planted so as to provide greater than fifty percent (50%) of coverage adjacent to the residential use. The space between such wall, fence, or planting screen, and the lot line of the adjoining property in any Residential District shall be landscaped and maintained in good condition.

521.1 Number of Parking Spaces Required

In all zoning districts where permitted in this Resolution the number of parking spaces provided shall be in accordance with the following schedule of requirements:

521.6 Handicapped Parking

Off- road parking spaces serving buildings and uses required to be accessible to the physically handicapped shall have conveniently located designated spaces provided in accordance with applicable federal, state, or other local codes.

SECTION 522 FIRE DEPARTMENT WATER RESOURCE

- 522.1 For the purpose of protection of public safety, the real property owner(s) within platted subdivision(s) having a road serving the buildings, structures, and uses within said subdivision shall provide for or demonstrate the existence of an acceptable fire department water resource (see Section 202). This fire department water resource is to be located so that no lot within the subdivision is further than one and one-half (1-½) miles by road from said water resource. If all lots within a platted subdivision are within one and one-half (1-½) miles by road from an existing acceptable water resource, then no new water resource need be installed within said subdivision.
- a. A dry hydrant installation shall conform to Soil Conservation Engineering Standard 235 (dry hydrant assembly). This standard is available from the Munson Fire Department.
 - b. Location of a dry hydrant connection shall be within ten (10) feet of a hard surface access to a public or private road or driveway. The hard surface access shall have a minimum width of fifteen (15) feet. The dry hydrant shall not be located within a public road right-of-way.
 - c. The affected property owners shall maintain year-round any private road or driveway connecting a fire department water resource and dry hydrant.
 - d. The owner(s) of affected lots shall grant a permanent easement to Munson Township allowing access to a dry hydrant and water resource.
- 522.2 Detailed plans for the design of the fire department water resource shall be reviewed by the Township Zoning Inspector, the Munson Fire Department, and the Geauga Soil and Water Conservation District at the same time that the owner submits plans for soil erosion and drainage for their approval, in accordance with the *memorandum of understanding* between Munson Township and the Geauga Soil and Water Conservation District. Notice of approval of the plans for the water resource shall be forwarded to the Township Zoning Inspector by the Geauga Soil and Water Conservation District and the Munson Fire Department. The Township Zoning Inspector shall not issue any Zoning Certificate for a building, structure, or use within the subdivision nor sign the final plat for the subdivision until such notice of approval is received.
- 522.3 In order to assure compatibility of a dry hydrant with the equipment of the Munson Fire Department, plans for the dry hydrant installation shall be submitted to the Township Zoning Inspector who, upon consultation with the Munson Fire Department Fire Chief or his designate, shall approve or deny the installation plans. No Zoning Certificate shall be issued for any building, structure, or use within the subdivision until the Township Zoning Inspector has granted approval of the actual dry hydrant installation.

SECTION 523 MANUFACTURED HOMES

Manufactured homes shall conform with the following:

- A. A manufactured home shall be permanently sited on a lot and shall:
 - 1. Conform to the Federal Manufactured Housing Construction and Safety Standards Act of 1974 and have a certification to that effect, in the form of a label or tag permanently affixed to such manufactured home in the manner required by 42 U.S.C.A. Section 5415, and be manufactured after January 1, 1995 and
 - 2. Have all hitches, axles, wheels, running lights and other indicia of mobility removed from the home, and
 - 3. Be exclusive of any addition having a width of not less than twenty-two (22) feet at one point, and a minimum floor area in accordance with the residential district in which it is located; and
 - 4. Have a minimum (A) roof pitch of 3:12, conventional residential siding, and a minimum six (6) inch eaves overhang, including appropriate guttering; and
 - 5. Be permanently installed upon and properly attached to a continuous perimeter foundation that meets the manufacturer's installation requirements and applicable state and county building regulations and connected to appropriate facilities; and
 - 6. Conforms to all Residential District regulations for the district in which it is located.

- B. In addition to the above requirements, the owner shall:
 - 1. Surrender the title to the manufactured home to the county auditor upon its placement on a permanent foundation and such surrender shall be notice to the county auditor to tax the manufactured home as real property.

SECTION 524 CARE CENTERS

524.1 Child Day-Care Center

Type B family day-care home and Type B home – a permanent residence of the provider in which childcare is provided for one (1) to six (6) children at one time and in which no more than three (3) children are under two (2) years of age at one time and as defined in O.R.C. Section 5104.01 (VV) or as amended.

524.2 Licensed Residential Facility

As defined in O.R.C. 5123.19 (M) or as amended.

SECTION 525 EXTERIOR LIGHTING

525.1 General requirements for exterior lighting in all districts:

- a. All new or replacement sources of exterior illumination of a building, structure, or lot shall be shielded so as not to cause direct glare and shall be directed away from perimeter lot lines and toward the principal building, structure, or use on a lot. In order to minimize light trespass, all exterior lighting fixtures with lamps rated at two thousand five hundred

**ARTICLE 5
SUPPLEMENTARY DISTRICT REGULATIONS**

- (2,500) lumens or more shall be of the full cutoff type. Such exterior lighting fixtures shall be installed so that they operate at all times as full cutoff as defined in this Resolution.
- b. Up-lighting for buildings, structures, and landscaping is not permitted unless utilizing a shielded lighting fixture.
 - c. Lighting of governmental flags is exempt.
 - d. Sign lighting shall comply with all applicable provisions in this Resolution. Exterior lighted signs shall utilize shielded fixtures from which direct light is not emitted beyond the boundaries of the sign.

525.2 Exceptions to Section 525.1 are:

- a. All exterior lighting fixtures with a combined output of less than two-thousand five hundred (2,500) lumens per fixture.
- b. Lighting fixtures producing light directly by the combustion of fossil fuels, such as natural gas or kerosene.
- c. Temporary lighting including holiday lighting or emergency lighting.

SECTION 526 FREESTANDING SOLAR ENERGY PANELS AND ARRAYS

526.1 Freestanding solar energy panels and/or arrays may be permitted in any district, provided the following provisions are met:

- a. The number of freestanding solar energy panels and/or arrays permitted in any district shall encompass no more than twenty percent (20%) of the total area of the lot upon which the panels and/or arrays are installed.
- b. Freestanding solar energy panels and/or arrays shall not be located in front of a principal structure in a Residential District.
- c. A freestanding panel and/or array shall be no higher than thirty-five (35) feet from ground level.
- d. All panels and/or arrays shall comply with the minimum setback requirements for the zoning district in which they are located.
- e. An application and site plan for a Zoning Certificate shall be submitted to the Zoning Inspector on forms provided by the Zoning Inspector.
- f. Freestanding solar energy panels and/or arrays shall have a ground installed, a storage battery, and/or a secured cover in place over each light gathering panel for safety reasons.
- g. All freestanding solar energy panels and/or arrays shall be able to withstand wind velocities of no less than one-hundred fifteen (115) MPH.

SECTION 527 ROOF AND WALL INSTALLED SOLAR PANELS

527.1 All roof or wall installed solar panels shall require a Zoning Certificate prior to installation.

527.2 An application and site plan for a Zoning Certificate shall be submitted to the Zoning Inspector on forms provided by the Zoning Inspector.

527.3 All roof or wall installed solar panels or multiples of these shall have a ground installed, a storage battery, and/or a secured cover in place over each light gathering panel for safety reasons.

SECTION 528 DECOMMISSIONING

- a. The owner of the panels and/or arrays shall keep all equipment functional and in good order. When a panel and/or array ends its useful life, the owner of the panel and/or array shall remove the panel(s) and/or array(s) within one-hundred eighty (180) days from the date on which the system last functioned, unless the applicant produces evidence of mitigating circumstances. The cost and expense of removal shall be borne by the owner.
- b. Solar energy panels and/or solar energy arrays will be dismantled using best management practices. Non-panel and/or array components such as foundations, anchor bolts, rebar, conduit, construction pads, and other subsurface components to be removed to a minimum of thirty-six (36) inches below grade. Items not known to be harmful to the environment buried greater than thirty-six (36) inches below grade may be left in place at the applicant's discretion. Once removal is complete, the excavation will be backfilled with material of quality soil comparable to the immediate surrounding area. The disturbed soils of the site will be rehabilitated including appropriate grading and reseeded of the area.

SECTION 529 ELECTRIC VEHICLE CHARGING STATIONS (EVCS)

Electric vehicle charging stations (EVCS) shall be permitted in the Commercial, Industrial, Institutional, Medical Use Zoning Districts; and, in regard to conditional uses in the Residential Zoning District as an accessory use upon issuance of a Zoning Certificate, subject to the following regulations:

- a. An EVCS shall be either a Level 2 or a Level 3 charger. If the charging station has more than one (1) port, then each port shall be counted as a charging station, but only one (1) Zoning Certificate shall be required for contiguous charging stations.
- b. An EVCS space shall count towards determining the minimum number of parking spaces as otherwise required by this Resolution.
- c. The minimum size of an EVCS space shall be ten (10) feet in width and twenty (20) feet in length.
- d. EVCS shall be protected at least two (2) permanent concrete filled bollards as defined by Ohio Fire Code Section 312 (L) (2), 312.2, a minimum of four (4) feet, and a maximum of six (6) feet in height.
- e. The EVCS space shall be designated by pavement identification markings and a permanent sign immediately adjacent thereto with a maximum face size of four (4) square feet. Sign height shall not exceed six (6) feet.
- f. EVCS space may be located within any front, side, or rear yard, subject to all minimum setbacks required by this Resolution, as well as the following additional requirements:
 - 1. A minimum of twenty-five (25) feet from any building or structure.
 - 2. A minimum of twenty-five (25) feet from any dispensing devices for flammable or combustible liquids.
 - 3. A minimum of twenty-five (25) feet from any above or underground tanks, fill connections, remote or submersible pump transfer equipment, vapor recovery equipment or vents.
 - 4. A minimum of twenty-five (25) feet from any tank vehicles while filling or transferring flammable or combustible liquids.

ARTICLE 5
SUPPLEMENTARY DISTRICT REGULATIONS

- g. EVCS shall conform with current and updated codes of the National Electric Code and shall be inspected once a year with the results submitted to the fire department.
- h. EVCS shall be designed and constructed in accordance with local building and fire codes.
